Career Objective

DevOps Engineer fresher with hands-on training in Linux, AWS, Docker, Jenkins, Git, CI/CD, and Infrastructure as Code. Strong understanding of cloud computing, automation, and deployment pipelines. Quick learner with excellent problem-solving skills, seeking an opportunity to start a career in DevOps and Cloud Engineering.

Technical Skills

Cloud Platforms

Amazon EC2, Amazon Cloudwatch, AWS Lambda, Amazon S3, Amazon VPC, IAM, Cloudfront, ELB, EBS

DevOps Tools

Git, Docker (Basics), CI/CD Concepts, Terraform, Kubernetes, Maven, Github, Grafana, Ansible

Programming

Python, Node.js (Basic), Shell Scripting

Concepts

Networking CP/IP, DNS, DHCP, Subnetting

Projects

Ethans Tech

06/2026 – Present

Automated CI/CD Pipeline for a Web Application

Technologies Used: Jenkins, Git, Docker, AWS EC2, GitHub, Shell Scripting

Description: Designed and implemented a CI/CD pipeline to automate the build, test, Docker image creation, and deployment of a web application on an AWS EC2 instance using Jenkins.

Roles & Responsibilities:

- Configured Jenkins pipelines for automated build and deployment.
- Integrated GitHub with Jenkins using webhooks for automatic code triggers.
- Created Docker images and managed Docker containers.
- Deployed applications to AWS EC2 instances.
- Wrote Shell scripts to automate deployment and cleanup tasks.
- Monitored pipeline execution and resolved build failures.
- Maintained version control using Git and GitHub.

Ethans Tech

03/2026 – 06/2026

AWS Infrastructure Automation using Terraform

Technologies Used: AWS (EC2, VPC, S3, IAM, Security Groups), Terraform, Git

Description: Provisioned cloud infrastructure on AWS using Terraform to automate the deployment of networking, compute, and storage resources.

Roles & Responsibilities:

- Developed reusable Terraform modules for AWS resources.
- Created VPC, subnets, Internet Gateway, route tables, and security groups.
- Automated EC2 instance provisioning using Infrastructure as Code.
- Configured IAM users, roles, and policies following security best practices.
- Created S3 buckets for application storage and backups.
- Managed infrastructure changes through Git version control.
- Validated infrastructure using Terraform plan and apply.

Internship & Experience

Junior Cloud Engineer

01/2025 – 02/2026 | Pune, Maharashtra

Growing Flowers Software Solutions LLP.

- Assisted in provisioning and managing scalable AWS infrastructure while following security and high-availability best practices.
- Managed EC2 instances, VPC networking, IAM roles, S3 storage, Route 53 DNS, and CloudWatch monitoring.
- Administered Linux servers including user management, package installation, service management, and troubleshooting.
- Used Terraform to provision AWS infrastructure through Infrastructure as Code (IaC).
- Created and maintained Ansible playbooks for server configuration and application deployment.
- Built and managed Docker containers for application deployment.
- Assisted in implementing CI/CD pipelines using Git, GitHub, and Jenkins.
- Monitored system performance and application logs using AWS CloudWatch.
- Troubleshot networking issues involving VPCs, Security Groups, Route Tables, Internet Gateways, and NAT Gateways.
- Collaborated with development teams to deploy and maintain cloud-hosted applications.
- Documented infrastructure architecture, deployment procedures, and operational best practices.

Full Stack Developer Intern

01/2024 – 06/2024 | Nashik, Maharashtra

Sumago Infotech Pvt. Ltd.

- Assisted in the development and maintenance of web applications using Java, Spring Boot, Angular, HTML, CSS, JavaScript, and MySQL.
- Developed responsive user interfaces and integrated frontend components with RESTful APIs.
- Participated in backend development by implementing business logic, database operations, and API endpoints using Spring Boot.
- Worked with MySQL for database design, CRUD operations, and query optimization.
- Used Git and GitHub for version control, source code management, and team collaboration.

Educational Qualification

B.E in Information Technology

12/2021 – 05/2025 | Nashik, Maharashtra

Savitribai Phule Pune university

CGPA: 6.98

Certifications

- Advance Certification in Cloud & DevOps
